

# Allied Health Specialists to join Dynamic Team

## Occupational, Speech Therapist, Physiotherapist, Exercise Physiologist, Dietician

Share

[www.unicopia.com.au](http://www.unicopia.com.au)

We are a newly established organisation with strong existing connections in the Fraser Coast community. Our approach is holistic, providing predominantly NDIS & MAC services, we also offer services to private paying & medicare clients.

As a new member of our Allied Health team, you have control to establish your role & environment. We have clients awaiting services with an overall shortage of allied health service providers in the region. As an integral part of our **positive** & community **focused culture, the successful candidate will be confident to grow their referrals through existing and new network channels.**

Working with us, you will be surrounded by leaders providing ongoing **professional development & mentoring**. Our aim is to see our participants **succeed** and we can only achieve this with your success also.

Unicopia is proudly & intentionally different to other service providers. We have an amazing culture with fantastic people.

Unicopia's team is led by Dr Christopher Cameron, Managing Director of Unicopia & Outreach Doctors ([www.outreachdoctors.com](http://www.outreachdoctors.com)). While the two organisations are separate, this highlights the holistic approach Dr Chris has to helping the community.

Unicopia has a multi-disciplinary team of support workers, early childhood intervention specialists, nursing staff, mental health & allied health practitioners.

### Essential assets for the role:

- The ability to manage a complex portfolio of client files.
- Experience working with vulnerable and disadvantaged communities including in Aboriginal and Torres Strait Islander Health.
- Completing thorough and rigorous assessments in the community including both in the home, clinic and in an outreach capacity.
- Being a strong client advocate.
- The ability to incorporate your assessments in order to make rigorous recommendations and ensure they're implemented.

- Attending medical appointments and conveying your assessments with your client and/or their stakeholders including through a case conferencing model.
- A deep experience with undertaking initial assessments, workplace assessments, ADL assessments, Full Functional Capacity assessments, SIL/SDA assessments, etc.
- Strong communication skills and the ability to work within a multidisciplinary team with other allied health and administration professionals
- Communicating with Doctor and other medical and allied health professionals to ensure appropriate intervention and continuity of care.
- Documenting case notes as part of reporting and compliance requirements.

### **The Perks:**

- Excellent remuneration depending on experience.
- Professional development opportunities.
- Truly flexible workplace environment.
- Latest technology provided by the company.
- Regular team building and social events.
- Employment package will be individually negotiated based on experience & qualifications.

### **About You:**

- Tertiary qualified in Occupational Therapist, Speech Therapist, Physiotherapist, Exercise Physiologist, Dietician.
- Full registration with AHPRA.
- Limited registration with AHPRA may be considered.
- Car and valid Driver's license.
- NDIS Worker Screening Check
- Ability to work autonomously and within a team environment.
- Exceptional customer service skills and ability to build strong stakeholder relationships.
- Positive "can do attitude" passionate about helping people.
- Indigenous and Torres Strait Islander people are encouraged to apply for all positions.
